📍 Fergana 🔗 My Portifolio Website

👤 Profile

Hello! I am a young and passionate Frontend developer from Uzbekistan. I strive to create user-friendly, modern and aesthetic web applications with every line of code. Good design and clean code are not a profession for me, they are a way of life. I am interested in learning new things

🎓 Education

ITeach Academy, *Frontend Development Course*
08/2023 – 04/2024 | Farg'ona, O'zbekiston
Studied frontend web development including HTML, CSS, JavaScript, React, and modern UI libraries. Completed practical projects and built a personal portfolio.

📁 Projects

Portfolio Website, *Personal projectes*
Created a personal portfolio website to present my skills, experience, and web development projects. Built with React and Tailwind CSS, featuring responsive design, animations, and an easy-to-navigate structure. Deployed on Vercel for public access."

🎸 Interests

UI/UX Design & Modern Web Technologies Open Source Contributions Problem Solving & Continuous Learning Tech Blogging & Sharing Knowledge

💼 Professional Experience

Frontend Mentor, *ITeach academy*
2025 – Present | Fergana

- Started as an **assistant** after completing the training program and quickly **promoted to Lead Instructor** due to strong performance.
- Gained extensive experience in **teaching, mentoring, and guiding students**, while effectively managing classroom activities.
- **Designed lesson plans** and implemented strategies that **enhanced students' learning outcomes**.

🧠 Skills
